Fax: (360) 902-8482

EXECUTIVE SUMMARY

Chapter 25, Laws of 2003, E2, Section 205 (1)(c) requires the Department of Social and Health Services' Division of Developmental Disabilities (DDD) to report quarterly on the implementation of providing community residential and support services to (i) residents of residential habilitation centers who are able to be adequately cared for in community settings and who choose to live in those community settings; and (ii) clients without residential services who are at immediate risk of institutionalization or in crisis. This report covers the quarter ending September 30, 2003. No one moved during this quarter. One person moved from an RHC June 25, 2003, last biennium, but was not included in the August 15, 2003, quarter report but is being added to that final report currently.

BACKGROUND

The Washington State Legislature for the 2003-05 biennium appropriated funds to provide community residential and support services for up to 14 people who are either in the community and in crisis and at immediate risk of needing institutionalization or living in an RHC and are able and want to move to the community. The Legislature appropriated \$300 per day to the Division of Developmental Disabilities to provide these community services.

PROCESS

People being considered to access the crisis funds to prevent their institutionalization will be evaluated on an individual by individual basis as the situation presents. Through a process adopted by the division to implement Olmstead during the 2001-03 biennium, each individual living in an RHC, their guardian or close relative(s), will be asked annually whether they want to move to the community. If a person wants to move the division will facilitate the move.

STATUS

No one moved during this quarter. One person is being added to the final report of last biennium as they moved during the final quarter but were left off the report. This one moved June 25, 2003, during the 2001-03 biennium.

The Division of Developmental Disabilities will evaluate case by case the need for utilization of the crisis funds for person's currently living in the community. Also, the division will continue the process of asking each individual living in an RHC and their representatives whether they are interested in moving to the community for services at the time of their Individual Habilitation Plan (IHP) meeting.
